

## SEEN, HEARD AND TOLD

By W. W. WHITAKER  
When he feels like it.

(By Mrs. WWW)

Editor Whitaker continues ill at his home, however, he is able to go for rides about the county. Two of his favorite places to go are: Grenada Lake and the farm at Osberry.

In driving past the handsome red brick home of Mr. and Mrs. Dot Hayden, now reaching completion, we note that something new is being introduced into Southern rural homes. The home will be heated either by gas or electricity as there are no chimneys.

Also Mr. and Mrs. Junior Harris' home near their parents home in the Osberry, community is rapidly being finished.

At our farm garden gate, we met Charlie Ingram, a neighbor, who said he felt so bad that he was leaving for Hot Springs that day.

Never have we seen a better crop prospect than this year, especially in Beat 5. Of course, it could rain too much, but it hasn't done so yet.

Sorry to hear that our dear friend, Mrs. A. I. O'Brian, sprained her ankle recently and had to go to the hospital for treatment.

Also, its good to see Mr. H. J. Ray Sr. back on the job at Trust Bank after an illness at his home.

Gale Jones underwent lengthy and major surgery Monday at Grenada Hospital, and his condition is reported as satisfactory.

Friends of Mrs. Annie May Pate are concerned over her condition and serious illness. She is at home.

Sorry we had to leave out some news items this week. They will appear next week.

Brother Bulon Worsham out on Route 4 said that the person that left a pair of black moccasins on his property last Saturday night can get them by calling at his place.

According to Bill Lomax, there will be a meeting of the Grenada County Democratic Election Committee at the Court House Monday, July 18 at 10 a. m. for the purpose of selecting election officials.

We noticed the other day that the gold fish in the pool in the square are now in a freshly painted pool. It looks nice.

Mary Cain "The Queen Bee" candidate for Governor, spoke to one of the largest crowds yet, here Tuesday night. Mary, though we don't know how good her chances are, is a very smart and courageous woman, and we think would make Mississippi a fine governor.

Judge J. P. Coleman made an affluently good speech here last Friday night. He, too, had a big crowd to hear him.

Don't forget, Hon. Ross Barnett, along with local candidates, will speak in the public square here, Saturday, July 16, starting at 1 o'clock.

Also on Saturday, the 16th, the new Continental Trailways Bus Station will be officially dedicated, starting at 10:30. See full-page ad on the back page.

One of the best things the legislators could possibly do is this: Start the ball rolling to the end that every person seeking a renewal of his or her drivers license, will be required to take a rigid driver's test. Think this over. A lot of property and lives could be saved.

Another thing that that body could get started on is this: Instead of only those fishing with artificial bait be required to buy a \$1 license; make everyone that fishes ANY-WAY buy a 50c license. The state would realize ten-times more revenue, and, we think it would be a lot fairer. This could help finance our dual school system.

Read all of the political ads in this issue, and you won't have time to miss the news, left out.

If it wasn't for election years, a lot of weekly newspapers would not survive.

## TO THE QUALIFIED VOTERS OF GRENADA COUNTY, MISSISSIPPI

No candidate for office is more determined than I am that our Southern way of life shall be preserved. I am fully aware of the important position that the Circuit Clerk will play during the coming years in preserving this heritage that we all hold dear and believe to be right. Our legislature is entrusted with the responsibility of enacting laws to protect our rights and it is up to your elected officials to enforce these laws, fearlessly, and without favor. The current laws on voter registration are designed to help preserve our way of life and I assure you that I can, and will, enforce those laws to the letter. Registration is essential to voting and our laws are made, and enforced through the voices of the voters.

The incumbent Circuit Clerk has served ELEVEN AND ONE HALF YEARS and I invite any of you who are interested to inspect the registration books and determine for yourselves how often the incumbent has denied the right of registration to ANY who applied.

To all of you whom I will not have the opportunity of meeting personally, I invite your support and assure you of my appreciation and desire to serve you and your interests.

SINCERELY YOURS,

## LISTEN

to the voice of nature. If it were not for pain, our bodies could be destroyed without our knowledge. Pain is a friendly warning that something is wrong. If, in disease you silence this warning by deadening the pain, you have not corrected the cause, but you have taken away nature's danger signal. CHIROPRACTIC is a science—not a deadening pain but of correcting the cause that produces pain.

### More Money In Your Pockets . . .

## Fielding Wright's Plan To Raise The Income Of Every Mississippian

How can we raise the income of all Mississippians . . . How can we raise the money to provide all the things our State needs . . . and still not raise taxes?

Fielding Wright's Development Program For Agriculture and Industry Is The Answer. It Will . . .

1. Increase The Income Of All Mississippians
2. Increase Our Cash Farm Income
3. Bring About The Construction Of Home-Owned Processing And Manufacturing Plants Throughout The State, And Thereby . . .

—Provide more payroll dollars to swell the volume of retail and wholesale trade in our State, and

—Provide bigger and more stable markets for the wealth of agricultural products which our farmers are capable of producing if they are assured adequate and profitable markets. And then, with additional millions of dollars in the pockets of all Mississippians, and with millions of new dollars passing every year through the channels of trade in our State, we can:

1. Do far more for our common schools.
2. Provide far better salaries for our teachers.
3. Provide more money for our sick and aged and for health and guidance services for our children.
4. Provide more money for our colleges and universities.
5. Build more and better rural roads and main highways.
6. Meet the financial needs of our municipalities.
7. Provide all our people with the governmental services they need—in the amounts and up to the quality already enjoyed by many other states in this Nation.

AND WE CAN DO IT ALL WITH FIELDING WRIGHT'S PLAN—WITHOUT RAISING TAXES!

### HOW FIELDING WRIGHT'S PLAN WILL WORK—

Every county will be surveyed to determine what plants are needed. A Revolving Fund of at least \$10,000,000 will be created by private industry in Mississippi to provide for home ownership of new plants. Once a community has issued bonds for a site and building for a new industry—as is now done under the present BAWI law—in order to have home ownership of the industry, they must raise by stock subscription 50% of the money needed to equip and operate the plant. The Revolving Fund will provide the other 50%. If enough private funds are not available, the Revolving Fund will match the local community's part on a State loan basis. Local citizens can take all the stock at the beginning, if they are able

to do so, or they can buy up any portion held by the Revolving Fund at any time they want to.

We will also intensify our efforts to attract out-of-state industries, and under Fielding Wright's program increased port and river trade and tourist activity will provide access to markets and additional trade volume to Mississippi. Based on conservative estimates Fielding Wright's program, by increasing our income just to the average of other Southern states, will bring Mississippians \$670,000,000 more annual income and our state \$50,000,000 additional yearly revenue from the sales tax alone!

#### TOWN TALK

(Continued from page 2)

Of their street paved and lighted. Almost everyone admires courage. Sometimes, as in case of war, individuals have the opportunity to manifest and demonstrate real personal courage and we all are thrilled when we see or read about great feats of personal courage. But I tell you there's no greater courage than the silent enduring courage of poor people. They live by faith I guess, or else by courage, because many of us

would be frightened if our baby got sick in the middle of the night while we live 3 blocks from a good hospital and have doctor friends who would respond to our call. But what would we do for courage if we lived 10 miles in the country on a muddy road with nearest neighbor a mile down the road? Courage? Never discount the silent courage of the poor people who work the farms and grow the food and do all kinds of manual work and who must depend upon their own strength for what security

they have.

Our preacher said "There are 3 things the same in every land and in every language, a drop of blood, a sigh, and a tear" and I wish we city dudes would remember that as we meet and trade with the little people in the back country who are not little people at all, but only people who are poor in the way of material things.

Here's a clum drop: Air Force meteorologists have figured a jet stream off the West Coast that would provide an additional 300 miles an hour speed for planes already able to fly 450 miles an hour, and in this way Russia could bomb towns in our Southwest quicker than the Canadian border. They reason the planes could slip down the West Coast out of range of radar detection, dip around through uninhabited parts of Mexico and follow the jet stream of swift air in the upper altitudes right into Texas and the midwest... So

let's not feel too secure; particularly in cities and towns with Army and Air Force connections - like Dallas, Ft. Worth, Texarkana and Little Rock, New Orleans and Biloxi. The need for more interest in civilian defense is an acute one in this country.

Correct this sentence: "No, no, mother sit on to bed", said the teenager. "It was MY party and I'll do the cleaning up."

The persons hardest to convince they are of retirement age are the children - at bedtime.

Mississippi is growing like a teenager — industrially, agriculturally, economically... Today's Mississippians have more money, more homes, more cars, more of just about everything. That includes a lot more telephone service!

This year we expect to invest 16 million dollars in Mississippi to provide the new and improved facilities demanded by the state's expanding prosperity... This additional money, like the 95 million already spent, must come from people willing to invest their savings in telephone property. Mississippi's telephone needs are growing and we are eager to meet them.

### JULY GARDEN GUIDE—

#### JULY JOBS

1. Harvest potatoes and onions if not done already. STORE POTATOES in dark, cool storage — ONIONS in dry, airy storage.
2. Fall Irish potato seed can be selected from spring crop (size 1½ to 2 inches).
3. Sprout Irish potato seed in late July for August planting.
4. Don't expect to keep BERMUDA onions long — this isn't a good keeping variety.
5. Save dry peas and beans for winter use.
6. Save garden seed for next year.
7. Water and mulch as much of garden as possible. Water plot weekly if no mulch is used.
8. Shade tomatoes.
9. Prepare soil and add fertilizer for August planting.
10. Fill canning and freezing budget while quality of vegetables is still good.
11. Control pests—keep dusting and spraying.
12. Last call for setting sweetpotato vine cuttings (early July)
13. Harvest from all plants regularly to help keep them producing longer.
14. Plant broccoli, onion, cauliflower and cabbage seed in shaded area for fall plants. Also plant pole snap beans, pole lima beans, corn, okra, Rutabaga, tomato plants, field peas, carrots and bush lima beans.
15. Do not mix large amounts of fresh manure or old vegetable plants with soil now, but add these to compost pile.
16. Cultivate shallow to control grass and weeds.
17. Add to and water compost pile.
18. Keep fence rows clean—less insect and disease trouble next year.

## A MESSAGE TO THE PEOPLE OF GRENADA COUNTY FROM YOUR CIRCUIT CLERK

Having served you as your Circuit Clerk for the last three and one-half years, I feel that it is my duty to call to your attention the very serious responsibilities of this office. The duties of the Circuit Clerk now require the most capable and experienced person that we can elect.

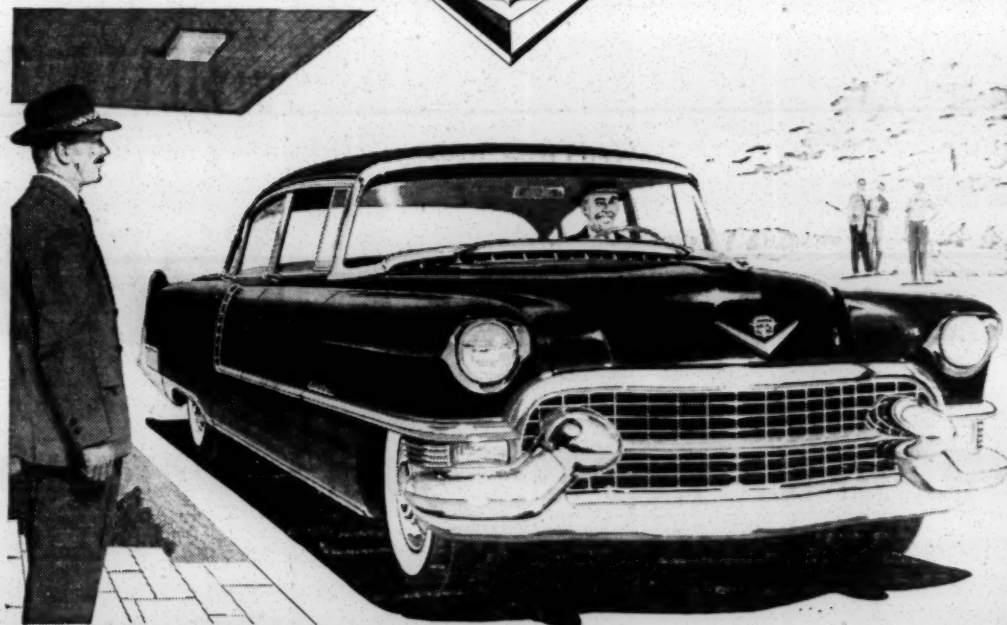

Under the new voter-qualification law, the Circuit Clerk is required to give a written examination to every applicant to register to vote, and the manner in which these examinations are given will largely determine what kind of an electorate we are going to have in this County. It is going to take a man who has the experience, the know-how and the courage to deny the right to register to those who should not be permitted to register, I have demonstrated that I could do a good job as your Circuit Clerk, and I earnestly beseech you to support me.

The Office of Circuit Clerk is not an object of charity or a dole for any one. Its duties are too important, particularly at this critical time, for us to take a chance on anyone who has not fully demonstrated his ability to handle the office.

Sincerely your friend,

## One Thing Men Agree Upon!

It is in the nature of things for men to hold opinions and to argue and dispute.

Football, baseball, politics—guns, golf clubs, breeds in dogs... name a best, and you have an argument.

And so it goes through boats and trains—and horses and tennis and makes of planes.

But when the discussion turns to motor cars, you'll seldom get an argument if you name CADILLAC as the car of cars.

That's about as close as men come to universal agreement. And with good reason.

Who could look about him at the various styles in motor cars—and not give the nod to Cadillac for its great dignified silhouette?

Who could take the wheel of this dynamic performer—and not crown it the king of the highway?

Who could relax in its luxurious comfort for a mile or five hundred—and fail to recognize it as the finest riding car on the world's highways?

And who could look back over its illustrious past—or look about him at the people who own it and drive it today—and not acclaim it as the most distinguished car in the whole automotive world?

We feel assured that you, yourself, are aware that Cadillac is the car of cars. But that is but part of the wonderful Cadillac story.

There are economy—and value—and dependability. And there are all the other sound, practical reasons for owning a Cadillac.

Come in and see us. Thirty minutes at the wheel... and you'll understand why there's no argument about a Cadillac!
